Senior UI UX Designer

Abdul Mohsin
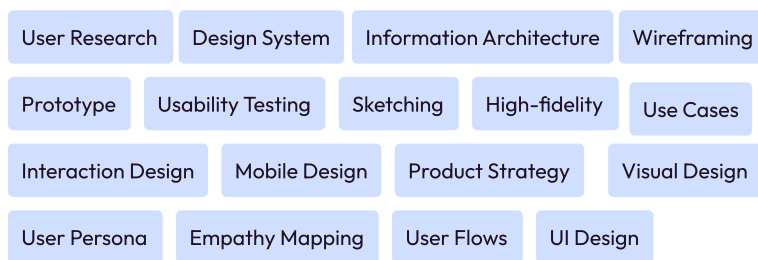

📞 0863 969 8421   🌐 **Abdul Mohsin**   in **linkedin**   ✉ mohsin6384@gmail.com

Senior UI/UX Designer with 8.9 years of experience crafting intuitive, user-centered **SaaS**, **B2B**, **Fintech**, and designing of **Digital products** (UX/UI) that seamlessly blend aesthetics with functionality. Adept at transforming complex business goals into engaging user experiences through strategic research, wireframing, and prototyping. Proven track record of collaborating with cross-functional teams to deliver high-impact design solutions across web, SaaS platforms, B2B, fintech, and mobile applications.

Proficient in leading design tools, including Figma, Adobe XD, Sketch, Maze, Photoshop, and AI-assisted platforms. Skilled across all stages of the design process, user research, information architecture, competitive analysis, flowcharts, interactive prototyping, and visual design. Recognized for balancing creativity with a strong understanding of technical constraints, ensuring designs are both visually compelling and feasible. Passionate about continuous growth, pursued certifications in UX/UI design patterns to stay aligned with evolving industry standards and best practices.

My Journey as UI UX Designer - Experience

Adaequare PVT LTD   (October, 2022 - Present), Hyderabad - India

Key Responsibilities as   **Sr. UI UX**   **(SaaS, Fintech & B2B Solutions)**

- Drive the entire UX/UI lifecycle from user research & conceptualization to wireframing, prototyping, testing, & final visual design.
- Conduct and synthesize user research (interviews, surveys, usability testing) to gain deep insights into user behavior and pain points.
- Create intuitive IA, user flows, and wireframes to organize content effectively.
- Deliver high-fidelity mockups and interactive prototypes using tools like Figma, Adobe XD, or Sketch, ensuring pixel-perfect execution.

Walkingtree PVT LTD (August, 2020 - July, 2022), Hyderabad - India

Key Responsibilities as **UX UI Designer (SaaS, Fintech & B2B Solutions)**

- Support and execute the end-to-end UX/UI design process, including user research, concept development, wireframing, prototyping, user testing, and delivering visually compelling final designs.
- Work closely with PM, developers, & stakeholders to ensure alignment on design vision, business goals, and technical feasibility.
- Plan, conduct, and analyze usability tests to validate design decisions and continuously iterate based on user feedback and analytics.

Quolt PVT LTD (November, 2018 - July, 2020) , Hyderabad - India

Key Responsibilities as **UI Designer**

- Contribute to the UX/UI workflow, user research, concept ideation, wireframing, prototyping, visual design, and usability testing.
- Create low- to high-fidelity wireframes and interactive prototypes to communicate design ideas and user flows effectively.
- Design visually engaging and intuitive interfaces that align with brand guidelines and enhance the user experience.

Vsplash Tech Labs   (April 2017 - October 2018)

Key Responsibilities as   **UI Designer**

As a Junior Ui Designer I used to design visually appealing and user-friendly interfaces for websites, mobile apps, and other digital products, consistently working within established design systems and brand guidelines. This involves close collaboration with Senior UI/ UX Designers, product managers, and developers to ensure designs are feasible, meet business goals, and align with user needs.
